

Nitrile Gloves

long cuffs – **50cm / 20inches**

Our single use nitrile gloves with extended cuff length meet the highest standards. The gloves are ideal for all tasks in the CSSD and endoscopy units due to their outstanding chemical resistance and textured palms. Long cuffs also reduce the risk of chemical contamination during undressing.

- Safety glove according to DIN EN 420 » also meets the standards for medical single use gloves EN 455 (1-4)
- EU Directive 2016/425 » Personal Protection Equipment Cat. III
- DIN EN 374-1 (Type B) » Strong chemical protection
- DIN EN 374-5 » Protection against chemicals and microorganisms
- Perfect fit with glove dispenser RP40056130
- Structured / textured palms
- AQL value <1,0 (G-II)
